

Lubrication Mate

Your mobile solution for efficient maintenance

 **KIC KRONES**

Lubrication Mate

Our lubricant trolley is the ideal solution for efficient maintenance in the production line:

All important operating supplies are clearly arranged and ready to hand. Practical holders for grease lubricators and a clearly structured, 5S-compliant design make day-to-day work much easier. This way, you save valuable time, avoid unnecessary trips – and ensure that your line is always optimally maintained.

At a glance

- All lubricants and cleaning agents centrally in one place
- 5S-design
- Suitable for industrial use
- Space for hand levers and rechargeable grease lubricators
- Folder compartment for technical documentation

Perfectly used space

One side for all lubricants,
cleaners and documents ...

... the other side for the grease lubricator
and other equipment.

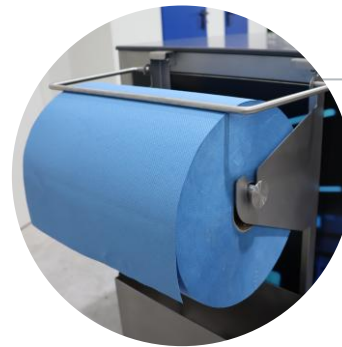

Technical features and equipment*

Functional all-in-one design

- **Suitable for industrial use**
The lubricant trolley made of robust stainless steel is specifically designed for daily use in industrial environments. Thanks to the foam inserts, everything stays in place.
- **Useful extras**
Paper roll holders, waste bins and toolboxes help keep things tidy and clean.
- **Tablet holder 13"**
Ideal for using digital maintenance programs such as Time2Lubrify.

... with smart extras such as:

Paper roll holder

Tablet holder 13"

Collecting tank

Tool box

* Lubricants are not included in the scope of supply.

Benefits to you

Everything in one place

No more time-consuming searches: All required lubricants, cleaning agents, grease lubricators and technical documentation are arranged systematically and ready to hand.

Mobile and agile

Smooth-running castors allow for flexible positioning at the point of use.

Perfect organisation

Thanks to the clear structure based on the 5S principle and designated storage locations, your workplace will always remain clean and tidy.
