

KRONES creadditive FIL PS 02

Glue stick

Product description

The KRONES creadditive FIL PS 02 is specially developed for the KRONES creadditive FIL 15 01 filament. The glue stick makes sure prints stick firmly when the print-bed is hot and then releases as soon as it cools down. This unique and innovative mechanism means that no tools are needed to remove prints from the bed. They just pop off when the bed cools down.

Application

1. Shake the KRONES creadditive FIL PS 02 pen.
2. Press the nib (end of your pen) on the printing bed for KRONES creadditive FIL PS 02 to flow and spread the adhesive evenly on the printing area (cover your bed with an even thin layer).
3. Make sure that no spots are missed.

It's best to apply KRONES creadditive FIL PS 02 when the printing bed is still cold, but it will also work when the printing bed is already hot.

Compatible with:

- KRONES creadditive FIL 15 01

Cleaning

Use a damp cloth to wipe off all the glue residues until a clean surface is visible. Wipe again with after rinsing the cloth with water.

Storage and shelf life

Please store the FIL PS 02 at 15 – 25°C in its originally sealed package in a clean and dry environment. If the recommended storage conditions are observed the products will have a minimum shelf life of 24 months.

Material safety data sheets

The current material safety data sheets are available for you to download from our website: www.kic-krones.com/en/downloads.php

You are also welcome to request them by e-mail to kic@kic-krones.com.
