

KRONES multicroma 2201

Cleaner for digital printing inks

Product description and application

KRONES multicroma Cleaner 2201 is used during ink changes and for cleaning all ink-carrying components, such as print heads and the ink supply. The effect of the cleaner is optimally adapted to the ink formulation of the KRONES multicroma series.

The cleaner is suitable for the printhead cleaning machine (Dekron) for cleaning and rinsing printheads, as well as for the automatic cleaning unit (Dekron).

Storage and shelf life

Store the product in a cool, dark, well ventilated place (15 – 25°C) in the closed original container. Minimum shelf life: 3 years.

Material safety data sheets

The current material safety data sheets are available for you to download from our website: www.kic-krones.com/en/downloads.php

You are also welcome to request them by e-mail to kic@kic-krones.com.

Labelling

Please refer to the corresponding material safety data sheet for details on:

- Hazardous goods labelling (section 2)
- Transport regulations (section 14)
- Safety regulations (section 4-8)

Processing information

Use solvent-resistant gloves when using the KRONES multicroma Cleaner 2201.

Application

The specific application of the product can be found in the respective device instructions (Dekron).

The contents of this product information are based on our general experience and to the best of our knowledge at the time of printing. The product information should provide hints for possible applications to the technically experienced reader. However, the product information is not intended to guarantee any properties of the described product, nor the suitability of the product for individual applications. It does not release the user from testing the selected product prior to application. We recommend individual consultation and are happy to provide samples on request, if possible. These products are continuously developed. We therefore reserve the right to change all technical data of this brochure at any time without notice.
