

## Technical data sheet

**KRONES colclean CG 4005****Chain lubricant for the food and beverage industry****Product description and application**

KRONES colclean CG 4005 is a concentrated chain lubricant for optimised bottle conveying of PET containers on metal and plastic belts. KRONES colclean CG 4005 is free of silicones and Teflon. It is applied undiluted on the conveyers with a special dosing equipment. KRONES colclean CG 4005 provides excellent lubrication, does not dry on the conveyors and can be washed off easily with water. For industrial use only.

**Operating conditions**

Concentration:	ready to use
Dosing:	automatically with dosing system
Temperature:	given

**Concentration check**

Not applicable

**Physical data**

Form/colour/smell:	colourless to yellowish, clear
pH value:	approx. 8
Density:	approx. 1.080 g/cm <sup>3</sup>
Flash point:	-
Foaming:	non foaming
Temperature stability:	stable at 5 to +40°C
Conductivity (in deionised water):	-

**Material compatibility**

Compatible in the working concentration with all common materials in food industry like: Stainless steel, glass, PET, PE, PP, PVC, PVDF, PTFE, Viton, EPDM.  
At the same time, however, the possibility of material incompatibilities cannot be completely ruled out. We recommend to carry out appropriate tests in case of uncertainty.

**Storage/ Shelf life**

The product should be stored sealed in the original container in a cool, well ventilated place.  
Minimum shelf life: 3 years.

**Classification**

Please refer to the corresponding safety data sheet for details on:  
Hazardous Information  
Transport Regulations  
Safety Regulations

**Disposal**

Recycling of packaging only fully emptied and closed.  
Any product residues must be disposed of in accordance with local regulations. For further information, please refer to our safety data sheet.

**Further information**

Ingredients according to EC regulation 648/2004

5-<15%:anionic surfactants  
See EC safety data sheet

### **Special instructions**

Rinse with sufficient amount of drinking water, to avoid any residues on surfaces, which could come into contact with foodstuff.

Due to possible incompatibilities with other products, it is recommended to rinse dosing equipment (pumps, pipes) thoroughly with water prior to a change-over to KRONES colclean CG 4005.
