

## Technical data sheet

**KRONES colclean IC 1003****Alkaline cleaning agent for the beverage industry****Product description and application**

KRONES colclean IC 1003 is a concentrated alkaline cleaning agent free of chlorine and silicates. It is used for CIP, soaking or spray wash applications.

KRONES colclean IC 1003 is highly effective at removing a wide range of organic soils; it is suitable for hard water and prevents scale build up. For industrial use only.

**Operating conditions**

Concentration:	0.8 – 3%
Dosing:	manually or conductivity controlled
Temperature:	ambient to 90°C
Contact time:	given

**Concentration check**

Titration of p- and m-value

**Physical data**

Form/colour/smell:	liquid, colourless
pH value:	highly alkaline
Density:	1.45g/cm <sup>3</sup>
Flash point:	-
Foaming:	non foaming
Temperature stability:	stable at 5 to +40°C
Conductivity (in deionised water):	see conductivity table

**Material compatibility**

Compatible in the working concentration with all common materials in food industry like: Stainless steel, glass, PET, PE, PP, PVC, PVDF, PTFE, Viton, EPDM.

At the same time, however, the possibility of material incompatibilities cannot be completely ruled out. We recommend to carry out appropriate tests in case of uncertainty.

**Storage/ Shelf life**

The product should be stored sealed in the original container in a cool, well ventilated place. Minimum shelf life: 3 years.

**Classification**

Please refer to the corresponding safety data sheet for details on:

Hazardous Information

Transport Regulations

Safety Regulations

**Disposal**

Recycling of packaging only fully emptied and closed.

Any product residues must be disposed of in accordance with local regulations. For further information, please refer to our safety data sheet.

**Further information**

Contains: Sodium hydroxide  
Ingredients according to EC regulation 648/2004  
<5%: phosphonates  
See EC safety data sheet

### **Special instructions**

Rinse with sufficient amount of drinking water, to avoid any residues on surfaces, which could come into contact with foodstuff.

Due to possible incompatibilities with other products, it is recommended to rinse dosing equipment (pumps, pipes) thoroughly with water prior to a change-over to KRONES colclean IC 1003.
